A

- Abstracts, new treatments for central retinal vein occlusion, 432
- Acute exudative polymorphous vitelliform maculopathy
 - characteristics of, 453
 - indocyanine green angiography of, 538
- Acute posterior multifocal placoid pigment epitheliopathy
 - diagnosis and management of, 387
 - with systemic necrotizing vasculitis, 64
- Adenocarcinoma, esophageal, choroidal metastasis from, 874
- Adult-onset foveomacular vitelliform dystrophy, photodynamic therapy for, 171
- Age-related macular degeneration. *See* Macular degeneration, age-related
- AIDS (Acquired immunodeficiency syndrome), immune recovery uveitis and cytomegalovirus retinitis in, 495
- Albinism
 - autofluorescence angiography for, 265
 - transpupillary thermotherapy threshold levels and (rabbit), 371, 378
 - X-linked ocular, 410
- Albipunctate lesions, genetic analysis of, 543
- Alcaligenes xylosoxidans* endophthalmitis, after cataract surgery, 578
- Alport syndrome
 - fleck retinopathy in, 245
 - with retinal detachment and vitreoretinal degeneration, 119
- Amelanotic mass, diagnosis and management of, 705
- Amiodarone, retinal electrophysiologic changes from, 354
- Amphotericin B-resistant *Trichosporon beigeli* endophthalmitis, postoperative, 404
- Anecortave acetate, for exudative age-related macular degeneration, 14
- Aneurysms, saccular, in choroidal melanoma, 726
- Angiogenesis. *See* Neovascularization
- Angiography. *See* Fluorescein angiography; Indocyanine green angiography
- Angiopoietin, in recurrent choroidal neovascularization, 402
- Angle-closure glaucoma, silicone oil-induced pupil-block, 407

Animal studies

- mouse model for retinal angiogenesis and subretinal neovascularization, 518
- posterior vitreous detachment from streptokinase injections (rabbit), 698
- postoperative visual field defects and (rabbit), 682
- squalamine lactate for choroidal neovascularization (rat), 808
- subretinal space indocyanine green toxicity (rabbit), 675
- transpupillary thermotherapy threshold levels and (rabbit), 371, 378
- Animosterols, for choroidal neovascularization (rat), 808
- Anticardiolipin antibodies, in retinal vein occlusion, 486
- Antiphospholipid antibodies, in retinal vein occlusion, 486
- Arteriovenous crossing dissection, for branch retinal vein occlusion, 145
- Arthritis, psoriatic, posterior scleritis in, 717
- Aspiration
 - intraoperative, end-aspirating laser probes for, 120
 - for vitreous sample collection (*Letter*), 426
- Autofluorescence imaging, for ocular albinism, 265
- Automated mirror image fixation target, for fundus examination, 242
- Avascular retina
 - borderline retinal tears in, 574
 - diode laser photocoagulation to the ridge and (*Letter*), 126, 127
 - skip areas in, 128
- Axial length, optical coherence tomography for, 177

B

- Bacterial endophthalmitis, from triamcinolone acetate injection, 686
- Bardet-Biedl syndrome, choroideremia with polydactyly and, 413
- Bartonella henselae* infections, diagnosis and management of, 224
- Benign concentric annular dystrophy, diagnosis and management of, 530
- Bifunctional microvitreoretinal knife, for vitreoretinal surgery, 270
- Bimanual surgery, twin lights for, 892
